## *Editorial*

Across the world the next normal is going to be different. Society can start to look forward to shaping their futures. 2021 will be termed as an era of transition with the acceleration in the use of technology, digitization, and new forms of working. The crisis has sparked a wave of innovation and has launched a generation of entrepreneurs. We have started to appreciate the value of people around us, leading to a more selfless way of thinking. With the pace of change accelerating in the 21 century, a key requirement to thrive is lifelong learning and the ability to acquire new skills. This change has been accepted in the present generation and willingness to consider ideas and opinions from others has helped us to do better. In the midst of a profound technological revolution we have adapted ourselves to the next normal.
